

Luis Tomás

MOBILE DEVELOPER

PROFILE

Flutter Developer with 4 years of experience building scalable mobile applications for Android, iOS, and web. Specialized in Clean Architecture, RESTful API integration, and UI/UX optimization using Riverpod/Provider. Published 3 apps on APKLis with over 1,000 cumulative downloads. Seeking to contribute to innovative projects by implementing robust technical solutions and agile methodologies.

PROFESSIONAL EXPERIENCE

Semi-Senior Flutter Developer

Idoo Group (Mexico) | Remote | July 2024 – Present

- Led the development of 3 client applications, integrating REST APIs and Firebase for real-time synchronization, as well as Google Maps.
- Collaborated within a developer team using GitHub and YouTrack, achieving 95% on-time deliveries in 2-week sprints.
- Technologies: Flutter, Dart, Firebase, BloC, Figma, Riverpod

Flutter Developer (Temporary Contract)

AthenDat SRL | Remote | January 2023 – July 2024

- Used GitHub Actions for CI/CD.
- Strengthened knowledge of Riverpod.
- Developed the Bodegon app for product sales with real-time geolocation using GPS streams and Mapbox integrations.
- Technologies: Flutter, Dart, Supabase, Riverpod, Android Studio

Freelance Flutter Developer

2022 – Present

- Published 4 apps on APKLis (Mi Barbero, Mi Manicura, GiChat, Andrea), featuring geolocation and payment gateways.
- Published an appointment booking app on the Play Store named Andrea, using WebSockets for real-time chat.
- Developed cross-platform solutions using slivers, touch gestures, and responsive design.
- Technologies: Flutter, Firebase, Google Maps API, GitLab CI/CD

Research Assistant in Mobile Development

CIGED Center – University of Informatics Sciences | 2022 – Present

- Developed prototypes for academic projects using Flutter.
- Researched best practices in clean architectures.
